

NORMAC NR-9600 WASH PRIMER

PRODUCT:

NR-9600 is a 2-part polymeric resinous based wash primer used in conjunction with Normac's NR-9500 2 part primer system for the bonding of the Normac series of sprayable urethanes, castables and trowelable putty systems to ferrous and non-ferrous metals. The NR-9600 Wash Primer provides excellent adhesion to carbon steel, aluminum, stainless steel and galvanized steel. NR-9600 in combination with NR-9500 is designed to withstand water penetration on exposed seams without breaking down as well as providing cathodic protection in corrosive environments.

NR-9600 primed surfaces can be left up to six months before application of NR-9500 – primed surfaces must be protected from contaminants such as oil or grease.

APPLICATION:

Normac 9600 can be brushed, rolled or sprayed – see Normac NR-9600 TDS (Technical Data Sheet). Health and Safety – see Normac NR-9600 SDS.

PROPERTIES:

Product	2-part polymeric resinous based wash primer.	Rev. 2
Colour	Part A Red, Part B Clear.	
Solids	Approximately 17.4%.	
Coverage	8.5m ² /kg at 25 microns thickness (41.5 ft ² /lb at .001" thickness).	
Ratio	1 Part A to 1 Part B by Volume. 100 Parts A to 91 Parts B by weight.	
Flash Point	A nd B both 19°C/67°F.	
Shelf Life	Part A 6 months and Part B 1 year from date of manufacture.	

Product Code	Part A	Description	Part B	Approx. Shipping Wt.	
9600-420	220g	1 x 500ml Can	200g	1 x 250ml Bottle	600g
9600-840	440g	1 x 1L Can	400g	1 x 500ml Bottle	1kg
9600-3.34	1.76kg	1 x 4L Pail	1.58kg	1 x 2gal. Bottle	3.8kg
9600-15.28	8.0kg	1 x 20L Pails	7.28kg	1 x 3gal. Pail	20kg
